

OSHA AND HIPAA COMPLIANCE

## Amy Ayers, BS, RDH

Looking to hire a dynamic dental compliance speaker for your next event? Amy Ayers is highly sought after as a speaker and a consultant who makes OSHA and HIPAA presentations fun and educational. Your audience will be glad they came and will walk away with tips they can use in their everyday practice.

Amy Ayers graduated Dental Hygiene school in 2005 and earned a Bachelor of Science degree Suma Cum Laude from Western Kentucky University. She spent 8 years in private practice, focusing on total body health in general practice settings. She has over 15 years of dental experience in OSHA and HIPAA. When the opportunity was presented to make the transition to education, Amy jumped at the chance to instill a love of dental hygiene in young people. She enjoyed a rewarding 6-year career, and the trust-based relationships made with her students are her favorite part of the experience. Her favorite D word is still "Documentation."

Amy joined MPS in 2019 and was excited to further her knowledge of HIPAA and OSHA regulations. Despite her 15 years of dental experience immersed in both, Amy knows that new information will be discovered every day. She has spoken at multiple seminars and webinars with over 300 people in attendance. Despite her busy schedule consulting and lecturing, she enjoys volunteering with different associations in Middle Tennessee. Amy keeps current by attending meetings and reading evidence-based publications, and she enjoys membership in several professional organizations.

Amy and her husband reside in the Middle Tennessee area and spend their free time cooking, gardening, and spoiling the dog and cat.
